## **INSTRUCTIONAL SUPPORT TOOLS**

FOR ACHIEVING NEW STANDARDS

### English/Language Arts • Unpacked Content

*For the new Common Core State Standards that will be effective in all North Carolina schools in the 2012-13 school year*

This document is designed to help North Carolina educators teach the ELA Common Core State Standards.

NCDPI staff are continually updating and improving these tools to better serve teachers.

#### **What is the purpose of this document?**

To increase student achievement by ensuring educators understand specifically what the new standards mean a student must know, understand and be able to do.

#### **What is in the document?**

Descriptions of what each standard means a student will know, understand, and be able to do. The “unpacking” of the standards done in this document is an effort to answer a simple question “What does this standard mean that a student must know and be able to do?” and to ensure the description is helpful, specific and comprehensive for educators.

#### **How do I send Feedback?**

We intend the explanations and examples in this document to be helpful and specific. That said, we believe that as this document is used, teachers and educators will find ways in which the unpacking can be improved and made ever more useful. Please send feedback to us at [feedback@dpi.state.nc.us](mailto:feedback@dpi.state.nc.us) and we will use your input to refine our unpacking of the standards. Thank You!

#### **Just want the standards alone?**

You can find the standards alone at <http://www.corestandards.org>

<b>Key Ideas and Details</b>		
1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.	1. Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.	Sixth grade students will read and analyze texts from a variety of literary genres. They develop the ability to closely examine the text’s explicit content. They learn how to look for and identify deeper meanings within the text by drawing inferences. In order to do this work, teachers can demonstrate and model for students how to refer to a text. Modeling may occur in the form of whole-class think-alouds followed by think/pair/share activities and guided practice. The teacher may also guide the students through the process of moving from analysis to synthesis. During this process, students carefully probe a segment of text in order to study and evaluate its multiple and varied meanings. The teacher and students work together to reconstruct and understand the text segment’s new meaning. Students take the textual content to which they add their own prior knowledge (personal experience and/or previous reading) to create new information in the form of inferences. One way students learn to refer to the text for support as they analyze and draw
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.	2. Determine a theme or central idea of a text and how it is conveyed through particular details; provide a summary of the text distinct from personal opinions or judgments.	
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.	3. Describe how a particular story’s or drama’s plot unfolds in a series of episodes as well as how the characters respond or change as the plot moves toward a resolution.

inferences is through the use of Socratic seminars. When engaged in these seminars, students are prompted by their peers to provide support *from the text* for their comments during a class discussion. In this way, students begin the practice of referring to the text for support.

Students in the sixth grade learn how to summarize texts by evaluating key details in which the central idea or theme is located. They develop the ability to distinguish key (thematic) details from all other details. In order to do this work, teachers first guide students in evaluating recurring ideas and changes in the characters and plot over the course of the text. Students will learn to monitor and keep track of such developmental changes through the use of graphic organizers. In this way, sixth graders are able to collect and effectively organize key thematic details within a text and create unbiased summaries withholding personal opinion and judgment.

Sixth graders will observe and analyze how story characters and plot interact throughout a given text. Students will develop the ability to read and evaluate texts with the goal of understanding how the story's events and setting impact and shape the characters in different ways. In order to do this work, students may use

**ENGLISH LANGUAGE ARTS COMMON CORE STATE STANDARDS

		<p>graphic organizers to determine how particular episodes may trigger various responses in characters, revealing one or more of the characters' traits. By doing this, students have a broad overview of all characters and corresponding plot developments, prompting students to further examine why such change occurs and at the same time, they observe how these changes add to the overall momentum of the story. Teachers will need to guide students in this thinking process at first, and then provide a gradual release of responsibility to students.</p>

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.	4. Determine the meaning of words and phrases as they are used in a text, including figurative and connotative meanings; analyze the impact of a specific word choice on meaning and tone.	As students read texts in sixth grade, they are expected to determine and interpret the meaning of unfamiliar words. In order to do this work, teachers may model how to interpret word meanings using contextual clues. Teachers may also provide students with opportunities to discuss new word meanings with a partner, in a small group, or within a whole-class setting. Students should begin to understand the impact word choice has on the text as a whole. They learn to recognize and analyze the importance of choosing specific words to create meaning and tone. Mini-lessons on figurative language assist sixth graders as they apply this skill during independent reading.  Students in sixth grade are expected to determine how individual elements of a work (section, chapter, scene, or stanza, etc.) contribute to a text’s overall scope. Students develop the ability to recognize how form relates to function and how a part relates to a whole. Teachers may use
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.	5. Analyze how a particular sentence, chapter, scene, or stanza fits into the overall structure of a text and contributes to the development of the theme, setting, or plot.	
6. Assess how point of view or purpose shapes the content and style of a text.	6. Explain how an author develops the point of view of the narrator or speaker in a text.

graphic organizers to assist students with the practice of identifying part to whole and whole to part relationships. Students also observe how the individual components of the text add to the development of the theme, setting, and plot. For example, students may observe how a pivotal scene within a work may alter the course of the plot, re-shaping the story. As students hone this skill, they see with greater clarity how individual elements of a text contribute and influence the development of the theme, setting, and plot.

Students are able to understand how the author develops the point-of-view of the narrator or speaker in the text. To build this understanding, teachers may provide students with discussion or writing tasks prompting them to reflect upon certain scenes within a text and imagine how their content/ style would change if the narrator's point-of-view shifted to an alternate point-of-view. For example, students could reflect upon a particularly personal, introspective scene described in first-person point of view and wonder: *Would this scene evoke the same reaction in the reader if told from 3<sup>rd</sup> person point-of-view? How does 1<sup>st</sup> person allow one to peer more deeply into a character's psyche than perhaps other viewpoints?*

<b>Integration of Knowledge and Ideas</b>		
7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.	7. Compare and contrast the experience of reading a story, drama, or poem to listening to or viewing an audio, video, or live version of the text, including contrasting what they “see” and “hear” when reading the text to what they perceive when they listen or watch.	Sixth grade students will compare and contrast texts across various genres on the same theme or topic. Teachers may engage the students by teaching a thematic unit. Teachers may integrate a variety of audio and/or visual materials based upon the text so as to appeal to students’ senses. For example, in a particular unit, students may read sections of a novel on the topic supplemented with non-fiction articles. They may also view, analyze, and discuss film clips. The teacher may also read aloud selected poems. By doing this, students can evaluate multiple avenues to the same subject comparing what they <i>see and hear</i> to what they <i>listen to and watch</i> .
8. Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.	8. (Not applicable to literature)	
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.	9. Compare and contrast texts in different forms or genres (e.g., stories and poems; historical novels and fantasy stories) in terms of their approaches to similar themes and topics.	Sixth grade students should be able to compare and contrast texts of different genres that share similar themes. Students need to read each text closely and analyze how each author conveys the same message through different avenues with the support of a Venn Diagram or other graphic organizer. Students may also choose to investigate the authors’ dissimilar backgrounds that inspire such

Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 6 topics, texts, and issues, building on others’ ideas and expressing their own clearly.</p> <p>a. Come to discussions prepared having read or studied required material; explicitly draw on that preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under discussion.</p> <p>b. Follow rules for collegial discussions, set specific goals and deadlines, and define individual roles as needed.</p> <p>c. Pose and respond to specific questions with elaboration and detail by making comments that contribute to the topic, text, or issue under discussion.</p> <p>d. Review the key ideas expressed and demonstrate understanding of multiple perspectives through reflection and paraphrasing.</p>	<p>Sixth grade students will collaborate in groups to discuss a variety of topics to express their ideas clearly and persuasively. At this level, students need to be able to actively listen to and demonstrate respect for each others' viewpoints. Students effectively explain how their observations and readings (visual and audio) contribute to a topic, theme or issue under study.</p> <p>One way teachers may facilitate student interaction within collaborative groups is to provide roles so all group members have a purpose and stay connected and engaged. Roles may vary based on the discussion at hand, but may include positions like leader, time keeper, recorder, reporter, etc. The assignment of roles by the teacher allows students to better monitor how and when students may discuss/elaborate on a certain issue. In addition, role assignments within groups build student independence and leadership. Sixth graders will engage effectively in teacher–led discussions and discussions with partners. Interpret information presented in diverse media and formats (e.g., visually, quantitatively, orally) and explain how it contributes to a topic, text, or issue under study.</p>	<p>learning includes: book clubs, literature circles or Socratic seminars. These activities require students to prepare for the discussions by reading and becoming familiar with a text before the discussion takes place. When students are provided with a rubric specifically designed to assess speaking and listening tasks, they are more aware of their participation and performance within a class or group discussion.</p>
<p>3. Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric.</p>	<p>3. Delineate a speaker’s argument and specific claims, distinguishing claims that are supported by reasons and evidence from claims that are not.</p>	<p>Students are able to interpret and evaluate information presented in diverse media and formats. They learn how to perceive and explain how each medium shapes or influences the audience’s perception and understanding of the information presented. Sixth grade students will also observe how various mediums appeal to one or more senses with varying levels of intensity. In order to do this work, students could be presented with a speech and be asked to compare reading the speech to watching a video of the speech. Students may wonder: <i>Which version did I prefer overall? Did I connect more to the information by listening or by reading? How did it affect my understanding to hear the speech?</i> The responses to such questions may then be discussed and debated within a group or whole-class setting.</p>

		<p>This standard requires sixth grade students to evaluate a speaker's argument and distinguish between solid, supportive evidence and weaker details that do not directly link to the topic. One way to approach this is to analyze several speeches or debates. Student may use a graphic organizer as a note-taking tool to categorize and classify which claims in the speech are supported by clear evidence and which reasons are not.</p>

While communicating orally, whether in whole class discussions, with partners or with a small group, students organize their ideas in a logical, sequential order. To achieve this, students draw from a variety of skills including using context and function to determine a word’s meaning, analyzing unknown words using knowledge of Greek and Latin roots, and developing the skills to use reference tools when necessary. Possible activities to attain this goal include practice with analogies in order to understand how function can serve as a clue to an unknown word and word studies of common roots. As students refine these skills, they should be asked to routinely apply their knowledge in authentic reading, writing, and speaking contexts.</p> <p>Students understand the nuanced, unspoken, and non-literal meanings of language.
